Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: applicants have amended base claims to include allowable subject matters in order to overcome the prior art rejection. In combination with other limitations of the claims, the cited prior arts fail to teach a low voltage supply generating unit for generating a low voltage internal power supply from a low voltage external power supply of said external supply voltage, as recited in amended claims 1 and 11.

2. Claims 1, 3-11 and 13 are now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
